

April is Child Abuse Awareness Month

Since 1985, **April** has been nationally recognized as Child Abuse Awareness Month. The Michigan Children's Trust Fund (CTF) has used this special time each year to acknowledge the importance of families and communities working together to prevent child maltreatment in all its forms.

One of the ways to show support for Child Abuse Awareness month is wearing blue. The Sanilac County Child Abuse Prevention Council would like to invite other agencies/organizations within the community to take part by sending us a picture of you and your team wearing blue. Let's work together and show our support against child abuse! The goal is to flood our Facebook page and website with the photos from our community partners. Photos can be sent to Stephanie MacMillan at macmillans@sanilacchild.org.
